HAWAIIAN AFFAIRS.

The Commissioners Have Accomplished Their Work.

THEY ARE READY TO RETURN.

Two of the Members Have Already Left Washington—But One Will Remain Until After the Inauguration—Correspondence With Minister Stevens—Position of Princess Kaiulani.

WASHINGTON, Feb. 22.—Messrs. Castle and Wilder, members of the Hawaiian annexation commission, left Washington yesterday evening en route to San Francisco. Mr. Thurston, the head of the commission, expects to leave Thursday, joining his associates in Chicago Saturday, whence they will go to San Francisco together. Mr. Carter will remain several days longer, possibly until after the inauguration of Mr. Cleveland.

Among the correspondence upon the Hawaiian situation sent to the senate yesterday by the president was a confidential letter from Minister Stevens to Secretary of State Foster, written last November. In it Mr. Stevens gave a full statement of the financial, agricultural, political and general condition of the islands. The following paragraph, in view of the appeal of the Princess Kaiulani to the American people, sent out from London a few days ago is of peculiar interest:

"The princess heir apparent has always been, and is likely to always be, under English influence. Her father is British in blood and prejudices, firmly entrenched here as collector of customs, an important and influential office. She has been for some years and still is in England; her patron there, who has a kind of guardianship over her—T. H. Davies—is a Tory Englishman who lived here many years, who still owns large property in the islands, and is a resolute and persistent opponent of American predominance, bitterly denouncing even the American acquisition of Pearl harbor.

"Mr. Wodehouse, the English minister, has long resided here; his eldest son is married to a half caste sister of the crown princess, another son is in the Honolulu postoffice, and a daughter is also married to a resident of one of the islands. The death of the present queen, therefore, would virtually place an English princess on the Hawaiian throne, and put in the hands of the ultra English the patronage and influence of the palace.

"In the existing state of things, with non-American intervention, these palatial influences, skillfully handled, are nearly equal, frequently superior, to the power of the legislature. Add to this palace power in British hands, the influence of an adventurous imprecious and the irresponsible heads of 'hoodlums' there results a state of things which would put in the power of Canadian and ultra British schemers, with a subsidy of \$50,000 to secure control of the legislature, and by prompt and vigorous action secure Canadian and British franchise privileges and rights entirely legal to get rid of which would cause embarrassment and expense to the United States and her allies."

Latest From Honolulu.

WASHINGTON, Feb. 22.—The following telegram from Minister Stevens at Honolulu received Saturday last has just been made public:

The affairs of state continue to be hopeful. Hoisting flag in protection of this government was expected. Subjects who were doubtful, now for annexation. The natives show unexpected regard for the United States flag. Prudent conduct of Captain Wiltz and the officers and crew of the Boston is a credit to the navy. Can not send by mail.

COLD BLOODED MURDER.

An Old Man the Victim of a Noted Tough.

WEST UNION, O., Feb. 22.—A cold-blooded murder occurred in the eastern part of this county Monday. Jacob Grooms, an old man, was the victim. He was engaged by William Cooper as "offbearer" at his sawmill. George Young, a noted tough, came past the mill, and walking up to Grooms began calling him ugly names. Grooms replied that he had nothing against Young and was not disposed to fight him. Young seized a heavy hickory sled standard and struck Grooms a blow across the head. The victim dropped without a groan.

Before the horrified hands could move Young was out of reach. A desperate attempt was made to capture Young, but it was unsuccessful. Groom was carried home in an unconscious condition, blood flowing from his ears and mouth. He can not live but a short time. Nothing will save Young from mob violence if he is captured.

M'KINLEY'S INDEBTEDNESS.

It Is Now Over a Hundred Thousand and Hourly Growing.

YOUNGSTOWN, O., Feb. 22.—A statement has been furnished as a result of the investigation into the affairs of Robert L. Walker, showing that the amount of paper on which Governor McKinley is endorsed is fully \$100,000 and may reach \$110,000. Experts assert that the total liabilities of the governor will not exceed the latter figures.

The statement startles the friends of the governor, as it was not believed at any time that he was on to exceed \$80,000. Arrangements are being made to promptly pay all the McKinley paper.

Robert Walker yesterday resigned as president of the Farmers' National Bank of Poland and the Girard Savings bank. Both institutions are perfectly solvent and have experienced no excitement among depositors since Saturday.

INDIANA LEGISLATURE.

Doings of Both the Senate and House Members.

INDIANAPOLIS, Feb. 22.—The senate acted favorably upon two bills yesterday which mediate important changes in existing laws. The first was Senator Magee's bill which provides that the wardens of the state prisons shall not accept any bid for contract prison labor at less than 95 cents per day, with penalties being fixed for its violation and all contracts for a less per diem being declared null. The second measure is that of Senator Leyden, known as the loan, trust and safe deposit bill. It provides for the incorporation of loan, trust and safe deposit companies under the laws of the state and, when so incorporated with a capital of not less than \$100,000, they may act by appointment of courts of justice or by their selection by individuals as guardians of minors, lunatics or of habitual drunkards and of the estates of deceased persons, the bill placing such corporations in practically the same relation towards the persons and estates under the care of courts that individuals now sustain toward them. The bill received a decided majority in the senate, and it goes to the house with a certainty that many of its friends will follow it there to urge its passage.

Other bills were passed as follows: Authorizing the formation of voluntary associations for the purpose of drainage; requiring candidates for county superintendent to hold a three years' license in order to be eligible to election. This afternoon the committee on executive appointments reported adversely upon the nomination of Trustee Welshans of the reform school for boys at Plainfield. The appointment was made by Governor Chase during a vacation of the senate, and was reported by Governor Matthews out of courtesy to his predecessor. A Democrat will now be appointed to the position.

The house went into committee of the whole on the general appropriation bill, the section under consideration being the salaries and expenses of the auditor of state's office. The committee recommended \$2,800 for the salary of the deputy auditor, \$1,500 each for the insurance and land clerks, \$800 for the stenographer and \$1,000 for office expenses. On motion of Mr. McMullen the salary of the first named was reduced to \$2,500 and those of the clerks to \$1,200, while that of the stenographer was stricken out entirely and the office expenses were reduced to \$600. The committee appeared to be deeply impressed with the fact that a stenographer is a useless appendage to a state office and the allowances for such employments were slaughtered as fast as reached. The officers will probably do as they have done in the past—employ the stenographers without authority from the legislature and pay them out of the allowance for office expenses.

The tax levy for 1894 and 1895 was reported to the house by the ways and means committee. The bill provides for a total tax of 32 cents on each \$100.

At noon yesterday the constitutional limit expired on the McHugh bill, extending the terms of all city officers from May next to November, 1894, and the measure is therefore a law, the constitution requiring the governor to sign or veto a bill within three days after it is presented to him and, if he does neither, the bill becoming a law without his signature. Not having returned it either with his approval or his objections within the prescribed time, it now has the same force as though he had signed it.

THEY WILL FIGHT.

Arrangements Almost Complete For a Fight Between Corbett and Mitchell.

NEW YORK, Feb. 22.—Charley Mitchell has finally agreed to deposit \$10,000 forfeit and fight Champion Corbett. This decision was arrived at at midnight last night when William A. Brady, Corbett's manager, and Solicitor Bernard Abrahams, representing Mitchell, met at the Gedney House and came to terms.

James H. Blanchard was decided upon as temporary stakeholder until Phil Dwyer has finished with the Hall-Simmons fight.

Brady, after the preliminaries had been agreed upon, proposed that a certified check for \$10,000 be deposited with Blanchard in Boston before Thursday.

Abrahams said the money would be forthcoming. It was then agreed that Mitchell and Brady should meet in the office of The Dramatic News in this city Thursday evening. After the meeting the whole party will start for Niagara Falls where the articles of agreement for the fight will be signed.

Must Hang For Killing His Son.

BATAVIA, O., Feb. 22.—Tuesday the jury in the Edward Jones murder case returned a verdict of murder in the first degree, after a deliberation of over 60 hours, they having retired Saturday evening. The verdict was received very quietly by Jones, and was much in contrast with his reception of the same verdict last March.

This is his second conviction. Jones having been confined in the annex of the penitentiary all last summer. The circuit court granted him a new trial in October. The general public looks upon the result of the trial with satisfaction, it being the sentiment of the people that the crime was a cold-blooded and deliberate one. He killed Edward Harlan Jones at Olive Branch, Monday, Oct. 6, 1891. Edward was his son, and was killed while returning from a McKinley meeting.

LAUNCHING Postponed.

WASHINGTON, Feb. 22.—The launching of the cruiser Indiana at Cramp's shipyards, in Philadelphia, has been postponed until Tuesday next. As a compliment to the president as a citizen of Indiana, Secretary Tracy has given him the right to select the person who shall christen the vessel.

OUT OF ROUTINE.

A Little Incident in the United States Senate.

CARLISLE'S SUCCESSOR SWORN IN

His First Vote Recorded in Favor of a New Government Printing Office in Washington—The House Puts in the Time by Filibustering.

WASHINGTON, Feb. 22.—The desk occupied by Senator Carlisle of Kentucky, when he resigned his seat in the senate in order to take one at the cabinet table, was decorated yesterday with the model of a log cabin standing in a garden of roses. It was in honor of Mr. Carlisle's successor, Mr. Lindsay, who appeared and took the oath of office and subsequently cast his first vote as a senator, on a proposition respecting a site for a new government printing office in Washington. That subject occupied over two hours of the day's session, and the result was that the various propositions in regard to it were voted down and that no decision at all was made.

JUDGE LINDSAY.

Another "site" question—that as to the New York custom house—was also discussed at much length, and the result was that an appropriation of \$800,000 in addition to a former one of \$1,400,000 to pay for the site was made. Another subject which gave rise to a rather heated discussion was one in reference to the expenses of the soldiers' homes, and that discussion drifted naturally to the question of pensions.

BEN AND GROVER

Will Ride Together on the Fourth of March.

WASHINGTON, Feb. 22.—Oliver T. Beaumont, chairman of the committee on carriages, yesterday received the following letter from President-elect Cleveland:

LAKEWOOD, N. J., Feb. 20.

DEAR SIR—In reply to your letter of the 6th inst., I have to say that I desire the ideas of President Harrison carried out as to my conveyance to the inaugural ceremonies. A very sensible suggestion is attributed to him in the newspapers, and that is that I ride in his carriage as he did mine on the 4th of March, 1889.

Albert Hawkins, Mr. Cleveland's old driver, who has been employed as a messenger in the pension office, will be on the box. It is said that the turnout will be the finest that ever came up Pennsylvania avenue. The vehicle will be drawn by four jet black horses. The harness will be white and each horse will be attended by a footman in white livery.

ONE MORE CABINET OFFICER.

George A. Jenkins of Pennsylvania, Selected for Attorney General.

PITTSBURG, Feb. 22.—A special from Brookville, Pa., says: "George A.

Jenkins has received from President-elect

Cleveland the official announcement of his appointment as United States attorney general. If he expected the honor he has successfully concealed his expectations.

The place was offered to Mr. Jenkins Monday by telegraph, and after consultation with his pastor, the Rev. Dr. Conway, he decided to accept. Mr. Jenkins was kept busy all the afternoon receiving his fellow townsmen, who came to offer their congratulations.

BOLD BANDITS.

An Attempt to Rob a Bank Results in a Murder.

PITTSBURG, Feb. 22.—Late yesterday evening four masked men boldly attempted to rob the city bank in Leechburg, Pa., 30 miles from Pittsburgh on the West Pennsylvania railroad. They were discovered before they had accomplished their design and one of the robbers was arrested. The other three escaped after a desperate encounter with the police officers.

The place was offered to Mr. Jenkins Monday by telegraph, and after consultation with his pastor, the Rev. Dr. Conway, he decided to accept. Mr. Jenkins was kept busy all the afternoon receiving his fellow townsmen, who came to offer their congratulations.

Skin Grafting.

VALPARAISO, Ind., Feb. 22.—Albert Kuhn, an employee in the car factory at Michigan City, was severely burned by molten lead some weeks ago. The attending physician has decided that skin grafting will have to be resorted to.

Kuhn is a member of the molder's union, and 15 of his shopmates have volunteered to furnish the skin necessary to perform the operation.

OHIO LEGISLATURE.

Bills Passed and Disposed of By Both Bodies.

COLUMBUS, O., Feb. 22.—The senate passed a bill providing that county commissioners shall, upon the petition of the proper number of owners of property, drained by or assessed for the construction of a ditch, appoint either a freeholder or a civil engineer to restore the ditch and notify the owners of the land originally assessed that it is to be cleaned out or sold.

Senate bill, providing that only a registered pharmacist or assistant druggist shall drugist at a state institution, was also passed.

Mr. Von Seggern's bill, providing for the sale of the Cincinnati Southern railroad, came up, but was postponed until next Tuesday, as the author has not yet obtained all the data desired.

The house passed the bill of Mr. Tischbein, which provides that notices to improve sidewalks may be served the same as summons in civil actions, and that if the owner of the property is a non-resident notice may be served on his resident agent.

Mr. Llewellyn's house bill appropriating \$9,000 for the publication of Volume 6 of the geological reports was passed.

After a lengthy debate the house defeated the Fisher bill to abolish the infirmary directors and outdoor relief system by a vote of 49 to 59 nays. The house also defeated Mr. Heinlein's bill providing for the transfer of insane convicts to the Columbus asylums.

The senate committee on railroads has recommended the passage of the Lampson bill to require railroads to equip freight cars with automatic couplers. It takes effect the same time as similar bills before congress in 1898.

Several members have been notified by their county officials that a large sum is being raised for the avowed purpose of securing the repeal of the Garber salary law. The officials who tipped off the snap refused to pay their assessments which will average about \$300 in each county.

DEMPSAY A FREE MAN.

Released on Bail Pending the Application for a New Trial.

PITTSBURG, Feb. 22.—District Master Workman Hugh Dempsey, convicted of complicity in the poisoning of nonunion men at Homestead, who was again placed under arrest by order of the court on Monday, was released yesterday afternoon upon furnishing bail to the amount of \$10,000, pending the application for a new trial.

Hugh O'Donnell, Jack Clifford and Sylvester Critchlow, who have already been acquitted on one charge of murder in connection with the Homestead riot of July 6, were released on bail in the sum of \$10,000 each yesterday. There are yet charges of murder, riot, conspiracy and treason pending against these men. Their trial may take place at the March term of court. If not at that time they will not be tried before the September term.

James Aker, charged with riot at Homestead, has been in jail since August. His case had been lost sight of until yesterday. Bail will be furnished for him tomorrow.

George Champenour and another Homestead man are yet in jail on the charge of murder. They will furnish bail and be released tomorrow.

Moonshiners Caught.

HUNTINGTON, W. Va., Feb. 22.—For months a number of shantyboatmen have been selling "moonshine" along the West Virginia bank of the Big Sandy river, and have evaded the officers sent to arrest them. They are a desperate looking set, but at last Deputy Marshal Naya of Ceredo succeeded in capturing two of the leaders, Sylvester Aliff and Hiram Osborne, in their boats and brought them here, where they were jailed. They will have a hearing before United States Commissioner Gibson.

One Disaster Follows Another.

ST. PETERSBURG, Feb. 22.—In connection with the destruction by frost last summer, famine and disease are now prevalent throughout Finland. More than 2,200,000 persons are dependent upon charity. Towns and villages are thronged with beggars. Some 500,000 peasants are barely able to find the means of subsistence. They have eaten most of their draft animals and their domestic pets. Typhus fever is carrying off hundreds daily.

Skin Grafting.

VALPARAISO, Ind., Feb. 22.—Albert Kuhn, an employee in the car factory at Michigan City, was severely burned by molten lead some weeks ago. The attending physician has decided that skin grafting will have to be resorted to.

Kuhn is a member of the molder's union, and 15 of his shopmates have volunteered to furnish the skin necessary to perform the operation.

The Pilots' Dangers.

HUNTINGTON, W. Va., Feb. 22.—Steamboat pilots on some of the craft passing along the Ohio have had narrow escapes from being shot by toughs living on houseboats in this vicinity in the last few days. Charley Warner, the pilot on the Carrie Brown, had a narrow escape from a bullet yesterday, and the matter was reported to the United States commissioner.

Whisky Trust Headquarters Burned.

PEORIA, Ills., Feb. 22.—The whisky trust headquarters in Bob Ingersoll's old homestead was burned yesterday. It is believed all the records and vouchers wanted in the congressional investigation were destroyed.

Homeopathist Dead.

ST. LOUIS, Feb. 22.—Dr. William Raymond Curran died at his home here Monday afternoon. He was born in Albany, Feb. 18, 1818, and was a pioneer in homeopathy in the west.

WEATHER INDICATIONS.

For Kentucky, generally fair Wednesday, with westerly winds.

WHAT was considered a probability three months ago is now a certainty. The Democrats will control the next U. S. Senate.

THINGS are still coming our way. Republican North Dakota sends a Democrat to the United States Senate in the person of W. N. Roach.

OWENSBORO will probably take a vote at an early day on a proposition to spend \$75,000 for street improvement. Would it not be a good idea for Maysville to follow suit?

MRS. SARAH KIPPLE, of Scranton, Pa., still persists in smoking after seventy-nine years' experience with the noxious and deadly weed. As she is only ninety-nine years old, there is, however, time for her to reform.

THE political tin mines in South Dakota have shut down. They were run with great energy—on paper—during the late campaign, but did not pay expenses, and it is now gravely announced that the shut-down is permanent. The "three or four hundred men" said to be thrown out of employment are mainly campaign liars.

THE tin plate fraud upon the American public has by this time assumed an easily recognizable form. The black plates are still made in Wales, but the tinning is done here, at a cost to the people of not less than \$15,000,000 a year. It ought not to require a laborious exercise of patriotism and common sense on the part of the next Congress to put an end to this means of the multifrom robberies perpetrated under the pretense of protecting American industry.

THE LEGISLATURE.

Record Books and Their Cost—Another Veto—Other Matters of Interest.

The bill relating to Circuit and County Clerks and record books was signed by the Speaker. The bill provides that the cost per annum of record books shall be prorated according to population of the counties.

Counties of 10,000 population, \$100; over 10,000 and less than 20,000, \$125; 20,000 and less than 30,000, \$150; 30,000 and less than 40,000, \$175; 40,000 to 60,000, \$250; over 60,000, \$1,000.

All costs for record books in excess of these amounts shall be paid by the respective counties where they are purchased.

The bill relating to Sheriffs, defining their duties, fixing fees, &c., was signed by the Speaker.

Birkhead, of Daviess, offered a bill to prevent all officials from using passes on railroads, steamboats and other common carriers.

The State Auditor's bill was signed by the Speaker.

Governor Brown sent in a message vetoing the bill to provide for two additional World's Fair Commissioners.

THE financial misfortunes that have overtaken Governor McKinley are very much to be regretted, as it is more than likely that they will result in his abandonment, for some time at least, of the public career for which he is so well fitted. He possessed before the failure of the friend for whom he indorsed so freely a modest competence, amply sufficient to maintain him in the independence becoming a man in public life. He has an invalid wife, to whom he is greatly devoted and whose ill-health has been a heavy tax on his time and purse. He has not many years for active work before him, and has been too much of a student to convert himself all at once into an efficient money-maker. The fact that his friends have promptly raised and made a long loan to him of the money in excess of what his own means enable him to pay, shows the regard in which he is held, and he is not the man to fail to respond to such confidence. He will devote himself to paying that debt and the country will lose the services of one of its most useful and pure-minded citizens till that is accomplished. Everybody will wish him good luck and prosperity in his business efforts.—Louisville Commercial.

GERMANTOWN.

Henry Lloyd, of Kentucky University, is at home for a short time.

The Ladies' Missionary Society met at the home of Mrs. Lizzie Hunter Tuesday afternoon.

Miss Anna Pepper has been spending several days with Miss Daisy Pollock, on Broadway.

A larger crowd than usual passed on Monday morning, bound for the trading ring at Mt. Olivet. Mrs. T. J. Curry will visit her husband's parents at Georgetown, O., Friday next, and spend several days.

Miss Hattie Erion on her usual visit home Saturday was accompanied by her friend, Miss Forman, of Murphysville.

During preaching at M. E. Church, South, on Sunday night Mrs. Sheeler, an aged lady, was taken sick and carried home.

Alfred C. Pollock sold his tobacco to William & Sheeler at 11 cents; B. Linville to N. T. Byar at 12 cents, all immediate delivery.

In the suit at Covington to set aside the will of A. J. Whipple, deceased, the jury returned a verdict for the defendant, sustaining the will.

George Humlong and Ed. W. Sallee have purchased the land of Samuel Winter, on the Augusta pike, provided they can get immediate possession. Price, \$15,000.

During the performance by the young people of Brooksville at the town hall on last Saturday night, an incident not on the programme came near changing the play into a real tragedy. A young man carrying a loaded pistol in a belt stooped down and the pistol dropped to the floor, discharging one of the chambers. The ball passed for about six inches through the flesh of his forearm and was found in his coat sleeve, producing a painful but not dangerous wound. Henry Pogue, Esq., took the wounded man to Brooksville and remained in the house a short time. On coming out his horse and buggy had disappeared and were found next morning on the Augusta pike below Hillsdale, the horse jaded and the buggy in pieces.

TILTON, FLEMING COUNTY.

C. W. Howe, of Mt. Sterling, was in town on Thursday.

Robin Goggin, of Washington, was here on Thursday.

J. H. Hart, of Reading, Mich., was in town on Thursday.

Singleton Paxton left on Wednesday for his home at Clinton, Mo.

R. B. Owens and T. J. Nicholson, of Maysville, were here on Thursday.

R. H. Sousley returned on Thursday night from Louisville, where he had been attending tobacco sales.

Rev. T. J. Wood and wife returned on Saturday from North Fork, where they had been to attend the funeral obsequies of Mrs. George Robinson, conducted by Rev. Mr. Keys.

Our young friend F. F. Hurst and Miss Minnie Cochran, daughter of Ed. Cochran, were married on Wednesday last, at Christian Church. Elder W. S. Irvin officiated. They left on a bridal trip to Cincinnati, returning on Saturday.

A good deal is being said about the mobocratic spirit so prevalent in this country. It is lamentable indeed. But it is a well known fact that mob law in this country, is simply the outgrowth of the utter failure of the authorities to enforce the law and punish criminals. It is perfectly useless to turn up the eyes with holy horror, or to shed crocodile tears over the lawlessness of the times while such miserable laxity and indifference prevail in regard to the enforcement of the law.

Mayfield-Sauer.

Last night, at the pleasant home of Mr. J. B. Orr on East Third street, Mr. W. P. Mayfield and Miss Hattie F. Sauer, of Lexington, were united in marriage in the presence of a few friends and relatives, Rev. R. G. Patrick officiating. The couple received the congratulations of those present, after which delightful refreshments were served. They will reside in Lexington, at which place Mr. Mayfield is in charge of the physical department of the Y. M. C. A. He is also connected with the firm of L. A. Hornsey, a prominent hardware merchant.

The bride wore pretty dress of crepe de chine, trimmed with duchess lace. She is a sister of Mrs. Orr, and is considered one of the handsomest young ladies in Lexington. The groom wore the regulation black. The couple return to Lexington this afternoon.

The Ladies.

The pleasant effect and perfect safety with which ladies use themay California liquid laxative Syrup of Figs,under all conditions, make it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of package.

Two boys at Frankfort bagged one hundred and twenty-five Robbins one night last week. They go out on the cedar hills with lantern and stick, and make the feathers fly.

The Independent Mountaineer.

[Beattyville (Ky.) Enterprise.]

It is strange fact, but nevertheless true, that there is less poverty in the mountains than in any other section of the State. While the mountain people are seldom wealthy they are rarely, if ever, in need of the necessities of life. Each man has his little patch of land on which he raises enough to support his family, and by odd jobs secures enough money to buy clothing. While the poorer people of the larger cities are suffering for fuel, the mountaineer is sitting by his comfortable fire smoking his cob pipe filled with "long green," which he himself has raised. Although the winter has been exceptionally severe we have yet to hear of a single family in Lee County that is suffering. The Kentucky mountaineer, however, is one of your independent fellows who will die rather than beg, and no one knows of his sufferings until he is found stiff and cold in death.

AN EDITOR'S THANKS.

Thank heaven for one day's rest in seven—
A time for calm reflection;
And more—a time to help the poor
By taking a collection.—EX.

A thoughtful Georgia editor sums it up as follows:
The editor's life is a rare one;
He lives and he loves and believes,
And when for his toil he gets nothing,
He is thankful for what he receives.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

TO INTRODUCE OUR

THE WESTERN AND SOUTHERN

Issues the most liberal Life and Endowment Policies of any Industrial Company. Their advantages combine immediate benefits in case of death, paid up values after a specified term, and incontestability after having been issued three or more years.

Why Insure in the Western and Southern?

Because it has paid \$100,000 in Death Claims. Because it has issued over 110,000 policies. Because its policies are in immediate benefit and their payment is absolutely guaranteed by the company's assets and a special deposit of \$100,000 with the State Treasurer for the sole protection of the policy-holders. CIRCUIT COURT.

Work of the Grand Jury—Change Recommended in the Court Room.

The grand jury was in session eight days, and reported a total of twenty indictments, their aim being to report none unless they thought they were backed up by the law and evidence. In the final report they say:

"As is customary with all grand juries, our attention has been called to numbers of petty cases we could find no evidence to sustain, and had before us many witnesses whose memory or recollections became very indistinct as soon as we began to investigate them on some violation of the law. These kind of witnesses consumed the greater portion of our time, and after spending hours with them we no nearer finding an indictment than when we commenced. These are the kind of cases we offer as an apology for spending so much of our valuable time and seemingly to have done so little."

"We have visited the public buildings and found them all in good order and good condition. We hereby recommend a fire-proof vault put in County Clerk's office to keep the public records in. We thank Your Honor and the Sheriffs and Clerks and both the Commonwealth and County Attorneys for the pleasant and agreeable manner in which we have been treated by all and the valuable information received. Especially do we wish to extend our thanks to our new Deputy Sheriff, who discharged his duties so faithfully in answering the calls and for his promptness in summoning and bringing witnesses before us. Having no further business before us we now respectfully ask to be discharged."

A petition signed by the Clerk and lawyers, sixteen in all, was presented to the court asking for a re-arrangement of the trial space of the court room. They say: "The Clerk's desk ought to be elevated, the Sheriff provided with a seat, or dais, the lawyers ought not to be compelled to surrender their seats and tables to litigants, witnesses and habitual court loafers, and certainly the jury ought to be so placed as not to be compelled to hear comments upon causes on trial; and the Judge and Sheriff ought not to be compelled to a constant rapping to order."

Judge Harbeson has the matter under consideration, and will confer with County Judge Phister in regard to the change.

B. Showalter was given judgment against the M. and B. S. Railroad Company for \$350 damages to some of his property in Dover.

The case of Mrs. Stickley against the M. and B. S. Railroad Company is on trial.

Professor Faber.

A special says Professor M. Faber, who has been traveling as assistant of Dr. G. Goldstein, optician, of Louisville, for more than a year, left Carlisle three weeks ago to visit Cincinnati, intending to return in a day or two, but has failed to show up, and it is not known whether he is dead or alive. He left an unsettled board bill of \$20 and borrowed \$19 from the landlady's son. While at Carlisle, he passed himself off as a single man. It is reported, however, that he has a wife and five children in Hungary, Europe. He had with him several hundred dollars worth of lenses and opticians' instruments belonging to Dr. Goldstein, whose father says he owes him \$350. While at Carlisle he paid considerable attention to a lady clerk in a dry goods store, and made free with young ladies generally. He did a good business and was regarded as all right, as he had good letters of recommendation and had been introduced by Dr. Goldstein. He has visited Maysville with Dr. Goldstein.

Poisoned Cakes.

Says the Cincinnati Post: "Friday morning Mrs. Frank Means, who resides on Front street, Bellevue, opened her front door and found a sack of sweet-cakes lying on the front steps. Thinking that some child had left them there Mrs. Means did not disturb the package, but cautioned her little daughter not to eat them. Saturday afternoon, when the cakes had not been taken away, Mrs. Means examined them and found that each cake contained the phosphorus tips cut from matches. The stuff is a deadly poison, and was present in sufficient quantities to kill several men. Mrs. Means notified the police, who took charge of the poisoned cakes and efforts are now being made to ascertain for what purpose the cakes were 'dosed'."

Mrs. Means is the daughter of Squire and Mrs. Jacob Miller, of this city.

LIFE'S SUNNY SIDE.

I dreamed that I sat on an iceberg, Far up on the Behring Sea shore, Dressed only in thin underclothing— Though a casing of ice, too, I wore; Stalactites hung down from my whiskers, Ten inches in length, if not more; And the cold north wind, fierce and blowing, Was driving me through to the core. The blood in my veins was congealing, And I knew that with me life was o'er; So I woke, and I found that the cover Had all fallen off on the floor.

ONE line of the ocean steamships carrying the live stock from this country to Liverpool has made a report showing the number of cattle carried and the loss. During the year 1892 seven vessels carried a total of 30,676 cattle and lost but 47 head. This is less than a fifth of 1 percent. One vessel which carried 5,215 cattle lost but one animal.

E. C. WALL, Chairman of the Wisconsin Democratic State Committee, has nearly exhausted his strength in answering questions as to the foundation for the rumor that he was going into Mr. Cleveland's Cabinet. He says this rumor reminds him of story. "One of the old Territorial Governors of Wisconsin," he says, "was Governor Doty. When he was appointed his wife congratulated him. 'Now you will be called Your Excellency,' she said, 'and what will I be?' 'Well,' replied the bluff old Governor, 'I guess you will be the same old fool you have always been.' So," says Mr. Wall, "when the cabinet appointments are announced you will find that I am like Governor Doty's wife."
